

My Dear Friends,

Another victory and we remain atop the ladder. We resumed at with 101 to get and the Surgeon and Odie looked to have the bowling covered until Sam tried to smash their bowler to fine leg for six and holed out. Odie was joined by Quite Useful and all seemed well until he received the worst decision since the Australian public decided to elect the Abbott Government, out LBW. The Skip strode out and he and Sean got us to the first innings win with a 79 run partnership to which he contributed 23. Quite Useful was his brutal and a little lucky self being dropped yet again and then caught off a no ball. In any event he and his brother were great to watch as they put on 54 in quick time. Sean raced to his second century with 11 sixes and 7 fours. POK's batting was a little more subdued as he guided his brother to a brilliant 105 before Sean was out caught. POK was joined by Eddo who was solid and composed and proceeded to smash the bowling to all quarters. The Skip declared after Peter reached his first century in any form of cricket, with 10 sixes and 7 fours. It was a brilliant way to make your maiden ton.

Our bowling and fielding was probably not at its peak as we went for the outright. POK and KG were the pick of the bowlers and Eddo chimed in to pick up a wicket at the end. The ground fielding was lack lustre and was not aided by an over consumption of Normie's Lamb Curry at afternoon tea time. It was entirely understanding that we all had seconds but probably slowed us down in the field. Eddo and the Surgeon both took very good catches off skied balls and Stamps was excellent behind the stumps.

We are down quite a few in the coming game. Surprisingly Juka has again made himself unavailable. Eddo will be out and POK is doubtful. Pressure is being bought to bear on the Leftie and perhaps the Cougar to re-join us and we haven't heard from the Keeper from Prague in some time.

Mighty Fighting Alumni Pete Wright and Reilly O'Brien are up for drafting this Thursday and we wish them well.

Sean can you respond if you get this.

Cheers  
Brett
